What is **MadCoR**? The **Madison Area Coalition of Reason (MadCoR)** is an informal association of groups in the greater Madison area who count themselves as part of our area's community of reason. Community of reason is a generic term that includes all self-identified nontheistic organizations, whether they call themselves atheist, agnostic, bright, Ethical Culture, freethought, humanist, Pastafarian, rationalist, realist, skeptic, secularist, Unitarian Universalist, or whatever else. Visit www.madcor.org for a link to all the groups.
